

MOVING BETTER, LIVING BETTER

Specialist orthopaedic care, personalised treatment and exceptional outcomes at the Cotswold Hip and Knee Clinic

A new era of specialist orthopaedic care has arrived in the Cotswolds with the opening of the Cotswold Knee and Hip Clinic, based within The Cotswold Suite at New Barn Close Surgery in the heart of Broadway.

Led by renowned consultant orthopaedic surgeon Mr Nadim Aslam, the clinic offers a highly personalised, concierge-style approach to the diagnosis and treatment of hip and knee conditions, bringing nationally recognised expertise directly to the local community.

As the only dedicated private orthopaedic clinic of its kind in the Cotswolds, the service has been created for patients seeking rapid access to specialist assessment, expert advice and advanced treatment options in an elegant, discreet and convenient setting.

Mr Aslam is one of the UK's leading knee and hip specialists, with more than 6,000 joint replacements performed throughout his career. Recognised as the UK's highest-volume private practice Mako robotic knee and hip surgeon in 2025, he is internationally respected for his expertise in robotic-assisted joint replacement surgery and precision orthopaedic techniques.

Alongside his joint replacement practice, Mr Aslam is also a highly experienced sports injury surgeon specialising in ACL reconstruction, osteotomies, cartilage preservation surgery and complex knee

injuries. He regularly treats patients wishing to return to active lifestyles, sport and long-term mobility through both surgical and non-surgical treatment pathways.

The clinic offers consultations for arthritis, sports injuries, ligament injuries, cartilage damage and persistent hip or knee pain, alongside advanced non-surgical treatments including steroid injections, hyaluronic acid gel injections and Arthrosamid injections for suitable patients seeking longer-lasting relief from joint pain.

Designed around patient experience, the clinic provides continuity-led orthopaedic care with direct access to a dedicated support team and prompt appointment availability.

All aspects of patient care are overseen by Katie Davies who works closely with Mr Aslam to provide a seamless, highly personalised experience for every patient from initial enquiry through to treatment and ongoing care.

To arrange a private consultation, please contact the booking team directly using the number below.
